DICTIONARY

AN AID TO LEARNING LANGUAGES

Command over a language does not necessarily come of a good knowledge of its grammar. There have been great writers who have never been even comfortably familiar with grammar and the rules that govern predicates and prepositions. Yet their writing has a brilliance and beauty that comptlers of grammar books can seldom touch.

Command over a language comes from a comparative study of different languages. One who has not mastered two languages at least cannot aspire to master one language even. And comparative study of two languages can be best performed by means of bilingual dictionaries, say dictionaries from Bengali to English or from English to Bengali. I particularly mention Bengali, because it has a wealth of idiom which is as varied as it is pictaresque and expressive.

INTRODUCTION

The present compilation was undertaken to meet the demand for a really adequate and up-to-date Bengali-English Dictionary. Bengali being a fast and continuously developing language, the endeavour was as bold and difficult as it was important. No pains have been spared to do full justice to the task and to make the compilation adequate and useful not only to students and teachers whose interest has been kept uppermost in the mind but also to the general reading public.

Thanks to the collaboration of a Board of experienced lexicographers, scholars and professors, the work has been done with a due sense of responsibility. It is now presented to the public who are the sole judge of its value and usefulness.

A Bengali-English Dictionary serves two classes of persons—those whose mother tongue is Bengali and who want to or have to express themselves in English, and those whose knowledge of Bengali is not thorough but who want to have clear notions of Bengali words, phrases and idioms through their rendering into English which they know fairly well. The needs of both classes have been kept in view throughout the work of compilation.

A Bengali to English Dictionary is not merely as important and indispensable aid to the learning of a foreign language, it also contributes in no small measure to the establishment of international understanding and good relation. If the present Dictionary is of the smallest service in this direction, its editor will consider himself more than amply rewarded.

Among the special features of the book the following may be mentioned :—

I. Words and their meanings :—Great pains have been taken to give idiomatic English equivalents for Bengali terms.

II. Newly coined Bengali words such as terminology for sciences and public service have been fully represented and rendered into English equivalents.

III. Bengali phrases, idioms and proverbs have been translated into both literal and idiomatic English equivalents.

IV. A list of current Bengali, Sanskrit and Hindi idioms, phrases and proverbs with their appropriate English renderings has been included in an Appendix.

V. Words in current use, especially of Arabic and Persian origin have also been incorporated.

PREFACE TO THE EIGHTEENTH EDITION

Twenty-four years have passed since this Dictionary was first published, and during these years it has run through nearly as many editions, each edition being of several thousand copies. This popularity which is at once outstanding and gratifying it owes principally to the brilliant body of educationists and scholars who form the Board of Editors and who have not only pressed into service their own vast erudition and keen awareness of the needs of the student community in particular and the reading public in general but have taken full advantage of the many valuable suggestions for improvement so kindly offered by professors, head-masters, teachers and other scholars.

Every edition of this joint product of master minds has naturally outshone its contemporaries, to be surpassed only by the succeeding edition, for the editors have never rested on their oars but have continually exerted themselves to make improvements. No wonder the Dictionary has earned a place in almost every bookshelf.

To students and to the reading public we offer the present edition with confidence that they will find in it the best of guides. But, as the saying goes, even the best can be bettered. We, therefore, invite, and shall be grateful to receive, constructive suggestions for improvement from all who are interested in the advancement of learning.

PREFACE TO THE TWENTY-SEVENTH EDITION

The Publisher is glad to present the reading public with the twenty-seventh edition of the Dictionary. Incredible as it may sound, it is an improvement upon its predecessor. Further improvements are, however possible, suggestions for which are earnestly invited and will be gratefully received.

THE PROOF SHEET AFTER CORRECTION

Undoubtedly the high esteem in which A. T. Dev, LTD. are held by the people of West Bengal, East Pakistan, Assam and Bihar and the wide popularity they enjoy are due to their untiring efforts to bring out good literature at a nominal cost.

The Dictionaries and "Abhidhanas" they have compiled are by far the *best* in the market, and the note-books they publish are still unrivalled. They have also brought out School Final Bengali and Sanskrit notes which in recent years, have no parallel. This is because the company take extreme care in preparing the books they publish, and are never satisfied until they meet all the requirements of the teacher and the taught alike.

নিস্তব্ধ গ্রামের সন্ধ্যা। গরু গাড়ির শব্দে নির্জন পথ সচকিত হইয়া উঠিয়াছিল, আবার তাহা স্তব্ধতায় ডুবিয়া গিয়াছে। উঠানের তেঁতুল গাছটার পাতা যেন বিনা বাতাসেই কাঁপিতেছে। দূরে সজিনা গাছের উরু দিয়া একটা লতা মাটির দিকে ঝুঁকিয়া আছে। তাতে ফুল নাই, কুঁড়িও নাই। পাতার সম্পদে ভরা যেন কোনই দৈন্য নাই। ঘিরে আলো নাই, বাহিরেও অন্ধকার। পানা-চাকা পুকুরের ধারে কর মচার ঝোপে নিঃশব্দ অন্ধকার এক ফালি চাঁদ সন্ধ্যার আকাশে কোথাও দেখা গিয়াছিল। বহু ঘরের দেবক বনের আড়ালে তাহা যেন কোথায় হারাইয়া গিয়াছে।
